Warrant Issued for Effingham Man in Civil Case

An Effingham man has a 30 thousand dollar bench warrant placed on him after not showing for a civil hearing on a loan involving his wind turbine business.

Judge Robert Bednar issued the warrant for contempt of court for Christopher Thompson, doing business as Renewable Energy Technologies, Friday afternoon in Atchison County District Court.

He was supposed to show cause, if any, why he should not be placed on trial.

Exchange National Bank of Atchison had filed the matter on March 9th, where Thompson owes the bank the amount of the bench warrant.

Wayne and Constance Hale have won a journal entry of judgment against Thompson for failure to comply with a city ordinance that passed late last year.

Jennifer Bourdreaux won the same judgment against Thompson and his wife Kathy for non-payment of 25 hundred dollars of wages.

She was once the secretary for their company.

Hammersmith Manufacturing of Horton also is due over 87 hundred dollars as part of a renewal judgment from earlier this month in Brown County District Court for towers manufactured for him in 2010.
