USD 338 to have Public Forum on Track Replacement

USD 338 parents will have a chance to voice their opinions on a track replacement proposal in a public forum Monday evening.

It will take place at six in the library at Valley Falls School, just before their scheduled meeting at 6:30.

The board will also look to take action on several summer maintenance projects, including three high school classrooms, a new art room, and technology upgrades.

They will also look to approve the teacher iPad grants, and discuss the end of year budget projections.
