HCC Tech School Graduates 111

Highland Community College's Technical Center site in Atchison graduated 111 individuals this week.

Doctor Don Coffey, Executive Vice President of Research, Development and Innovation at MGP Ingredients delivered the commencement address.

Students from the four major program areas received their certification of completion for their technical program.

Those areas include Business and Computer Technology, Construction Trades, Service Occupations and Transportation Technology.

A complete list of graduates can be found at atchison.fromtheporch.net
