Pottawatomie Road Work Underway

Resurfacing work is underway in Pottawatomie County, and motorists, in the affected area of travel, can expect delays.

The Kansas Department of Transportation says the project began on a 27-mile stretch from the Pottawatomie/Nemaha County Line south to the K-63/US 24 junction in Saint Marys.

Work is taking place during daylight hours, Monday through Friday, with some occasional Saturday work likely.

North and Southbound K-63 traffic is reduced to one lane, with a pilot car guiding motorists through the 45 mile per hour work zone.

Travelers should expect delays up to 15 minutes, and are encouraged to use alternate routes.

The 2-point-3 million dollar resurfacing is intended to smooth the road and extend it's life span.

The completion date is late August, weather permitting.
