#### County Finalizes Solid Waste Statistics

Atchison County now has the statistics needed to determine potential solid waste fees for its citizens as part of the proposed city county solid waste and recycling revamp.

County Commissioner Jeff Schuele says intern Chase Brunick has finished tabulating data for the project and Commissioners hope to have a fee finalized for action soon.

Bettis Asphalt Group also met with commissioners to present a proposal to construct a construction/demolition recycling site located at the old Bramley Quarry property on Sedgwick Road.

Schuele describes what the group proposed to Commissioners.

In other topics, Schuele says Commissioners hope to conclude the investigation on allegations of misconduct at Atchison Senior Village within the next one to two weeks.

This came after several employees of the county-owned nursing home came to Commissioners last month claiming unethical treatment and misuse of county funds by certain upper level employees.
