Falls City Council Approves Spoils Dump Project

The Falls City, City Council approved the expenditure of \$55,000 on the recommendation of the Board of Public Works to hire Fisher Construction of Falls City build a spoils dump at the Waste Water Treatment Plant. Utility Superintendent Alan Romine explained the need for the project. (play audio :22 seconds)

When originally advertising for bids the city had no takers. After soliciting bids, two companies bid the project and were just \$200 apart on their bid. The other company was AHRS Construction of Bern, Kansas.

When asked if the City was hauling the spoils to farmland in the area as was previously done, Romine explained that is no longer an option. (play audio :13 seconds)

In other business the Council approved on final reading an ordinance concerning sidewalk specifications in the downtown area and approved the appointment of Randy Raney to the Housing Authority.

What to do about the tree's or the birds that live in them south of the library was also discussed. We will have that information for you on Wednesday.
