Commissioners Get Bridge Inspection Report

(KAIR) -- Atchison County Commissioners Wednesday received a report of their 2012 bridge inspections.

County Commissioner Jeff Schuele reports positive results.

(Play Audio) RT: :22

He says 199 bridges were inspected, with 31 of them deemed "fracture-critical."

Commissioners also got an update on the ADA elevator installation in the courthouse.

Schuele says they were behind schedule on getting the elevator shaft delivered and in place, however, it's anticipated to arrive within one to two weeks and contractors are slightly ahead of schedule.

He says construction is still on pace to be completed on the elevator by the end of the year.
