### Gas Prices Spike in Nebraska

(KTNC) - Travelers to the Midwest will experience sticker shock when they see how expensive gas prices are here compared to other areas in the country.

Triple-A reports prices range from \$3.17 in Tucson to \$4.35 in Minneapolis. Spokesperson Rose White says two refineries, one in Illinois and another in Indiana stopped production for maintenance and now a refinery in Kansas is closed for 10 days as well. (play audio :32)

Production at Midwest refineries is the lowest it's been in 23 years, and White says there is a concern about gasoline supplies. (play audio :23)

White says we could easily see \$4.11 a gallon in Nebraska within the next two weeks.
