New Dialysis Center Opens in Marysville

(KMZA)--Community Memorial Healthcare in Marysville today (Monday) opened a new dialysis center.

Located in the South Plaza building on the hospital campus, the dialysis center has six-stations, and offers a spacious waiting area and ample parking.

Dr. Fadi Bedros, owner of My Kidney Center in Manhattan, will operate the dialysis clinic.

Until now, there was no local dialysis center for patients living in or around Marysville, with the closest center more than 45 minutes away.

A referral from your primary care physician is necessary to see Dr. Bedros.
