South Brown County School Enrollment Looking Up

(KNZA)--Despite initial concerns of low enrollment, the situation now looks good for the South Brown County Schools following a review of the figures.

Doctor Steve Davies, Superintendent of USD 430, says the original count has now increased, with the final enrollment count forthcoming.

The school district receives \$3,838 per student, with other calculations, including local option budgets, paying into the amount of funding received by the district.
