Call Center to Add 200-Plus Jobs in St. Joseph

(AP)-- A customer service company says it plans to add more than 200 jobs at its call center in St. Joseph.

APAC Customer Services announced Monday that it will add the customer service and data entry jobs through January. The new jobs will support the work of a major health care client.

The St. Joseph News-Press reports APAC announced last October that it was adding 345 jobs in St. Joseph because of growth in the retail industry.
