LEGO KidsFest

Kansas City is one of **only seven stops** LEGO KidsFest makes this year. We're coming to Bartle Hall May 13-15 with 190,000 square feet of activities you won't find anywhere else in North America.

We have so much for families to experience at our show that they **can't do anywhere else**, and the only way to do that is with your help.

EXCLUSIVE to LEGO KidsFest's 190,000 square feet of LEGO fun:

- Two Star Wars build and play areas
- Family competition in the Challenge Zone
- The BIG Brick Pile! It's monumental!
- Model Museum with never-seen models
- Compete with friends in the Brick Battle Zone
- LEGO Disney Princess
- Creation Nation – build America in a basketball court-size map of the U.S.
- LEGO NEXO Knights, Mixels, Technic, Construction Zone, video games and more!
