Local Road Closure Planned For Atchison County

**(KAIR)--A local road will be closed for up to six weeks due to a bridge replacement project.**

**Seth Howard, with the Atchison County Road and Bridge Department said in an e-mail, 210th Road (east of Rooks Road) in Atchison County will be closed beginning the week of Feb. 20 and will remain closed anywhere from four to six weeks.**

**Howard said the project will include removing the old concrete bridge structure and replacing it with an aluminum box culvert structure.**

**He said making the replacement will make the bridge safer by eliminating the narrow bridge and widening the roadway.**
