

Courthouse Fire Alarm System Updates Discussed

**(KLZA)-- Richardson County Commissioners have requested Emergency Management Agency Director Brian Kirkendall to obtain quotes for costs associated with changes to the courthouse fire alarm system.**

**Kirkendall reported last week, the system needs some minor changes to notify an individual or the Sheriff's Department if the fire alarm would be activated.**

**Prior to the new Richardson County Law Enforcement Center opening in 2016, there was always someone at the courthouse around the clock.**

**In other business, Commissioners approved a quote from Chaney Furniture Company in Falls City for the installation of carpeting in the Department of Motor Vehicles room and an office on the third floor of the courthouse.**

**The carpet and installation will come to nearly \$1,200.**
