Boil Advisory Lifted for Jefferson Co Community

**(KNZA)--The Kansas Department of Health and Environment has rescinded a boil water advisory for the Lakeside Village Improvement District in Jefferson County.**

**The advisory was issued June 20th because of a loss of pressure. Failure to maintain adequate pressure may result in a loss of chlorine residuals and bacterial contamination.**

**KDHE said Tuesday laboratory testing samples collected from the Lakeside Village Improvement District indicates no evidence of contamination and all other conditions that placed the system at risk of contamination are deemed by agency officials to be resolved.**
