

Doniphan Co Proposes Tax Reduction

(KNZA)--The Doniphan County Commission is proposing a 2018 budget of \$11.4 million that calls for a 1.8 mill decrease in the property tax levy.

The Commission approved the proposed budget for publication this week.

It calls for the county to collect \$5.6 million in local taxes, a nearly \$9,800 reduction over this year.

The county was able to lower the mill levy due to a \$5 million increase in the county's assessed valuation.

The proposed budget contains an about \$110,000 increase in funding for the county road and bridge department and around \$59,000 increase for the sheriff's department.

The Commission will consider adoption of the budget following a public hearing 9:00 in the morning of August 14th in the Commissioners room.
