Boil Advisory Rescinded for Mayetta

(KNZA)--The boil water advisory that had been issued for the Jackson County community of Mayetta has been rescinded.

The advisory was issued Thursday because of repairs to a valve resulting in a loss of pressure in the system. Failure to maintain adequate pressure may result in a loss of chlorine residuals and bacterial contamination.

The Kansas Department of Health and Environment said Saturday that laboratory testing samples from the city of Mayetta indicate no evidence of contamination, and all other conditions that placed the system at risk of contamination are deemed by KDHE officials to be resolved.
