

KS Girl Scout Camp to Cease Operations

DOVER, Kan. (AP) - Girl Scouts of northeast Kansas and northwest Missouri have announced plans to close one of its camps.

The Topeka Capital-Journal reports that programming and activities at Camp Daisy Hindman will cease Nov. 30 in Shawnee County.

Girl Scouts CEO Joy Wheeler says the decision was based on a steady decline in the resident camp program and operating at a loss of nearly \$200,000.

The camp has been renovated several times in the past five years, including upgrades to its water and electrical infrastructure. The program also installed new cabins, a natural playground and a spray park.

A Facebook post by Sophie Devanney says she "found a home at Camp Daisy Hindman this summer." She says she's upset to hear about the closure but will "cherish every memory" she has.
