

New vehicle donated to local Meals on Wheels Program

**(KMZA)--The Nemaha County Meals on Wheels Program has been donated a brand new vehicle.**

**County Senior Services Director Diane Yunghans says they were given a 2018 Subaru Outback from Subaru of America in celebration of the company's 50 years in the United States.**

**The new vehicle was unveiled Monday at the Seneca Nutrition Center and put to use Tuesday.**

**Well, it's going to be the lifeline of our program, because these vehicles deliver meals to our seniors here in Nemaha County. It couldn't have come at a more critical time because one of our two vehicles had broke down, and had to be towed, so it was perfect timing for us.", said Yunghans.**

**In celebration of their 50th anniversary, Subaru of America donated 50 new 2018 Subaru Outback vehicles to select Meals on Wheels programs throughout the country.**

**The company says the vehicles will be used in the delivery of an estimated 53,000 meals to an additional 3,700 seniors across 39 states.**

**The company says the donation will address the Meals on Wheels network's growing demand for fuel-efficient, versatile and safe delivery vehicles to enable the nation's most vulnerable seniors to live nourished lives with independence and dignity.**
