Strong winds lead to burn ban

(KAIR)--Strong winds, coupled with mild, dry conditions, mean a high danger when it comes to burning.

Because of the current forecast, Doniphan County has issued a burn ban.

Doniphan County Emergency Management Coordinator, Julie Meng, issued the burn ban Monday morning.

She says it will remain in place until further notice.

Fire dangers are high across the local region, as strong, southerly winds, gusting upwards of 25 mph, are in the forecast through Tuesday.
