

Storms Cause Damage At Big Lake MO

(KLZA)--Strong storms caused damage at Big Lake, Missouri Wednesday evening.

Winds estimated at 50 - 65 miles per hour damaged trees, damaged some outbuildings and turned at least one boat sitting on a trailer upside down.

Richardson County Emergency Management reported a tree at the Rulo Cemetery was struck by lightning and power was out in Rulo for a short period due to the storm.

A radar indicated tornado dissipated as soon as it started to form in the Verdon area according to Storm Spotters.

Another round of strong to severe thunderstorms is expected to develop Thursday afternoon and evening mainly south of I-80.
