Focus on the Beef Cow

**There will be an informative workshop at the NCMC-Baron Farm Campus in Trenton Missouri on Thursday, June 7th from 10:30AM till 2:00PM. Please RSVP by June 6th by calling 816-324-3147. Lunch will be provided.**

**Ranchers face many challenges each day that require their attention. These daily challenges require a lot of time and effort to get them done right. Because of this time commitment on these essential tasks often things like marketing, economic analysis and risk management get put on the back burner. With this in mind, the Wyoming Ranch Tools website was developed to help producers make those marketing and economic analysis decisions [www.uwyoextension.org/ranchtools](http://www.uwyoextension.org/ranchtools)**

**This workshop will demonstrate how to use the ranch tools to make every day decisions on your ranch.**
