

Boil Advisory issued for Lancaster

**(KAIR)--A boil advisory is issued for the City of Lancaster.**

**Mayor Tim Callahan Tuesday afternoon said the advisory is effective immediately, and will remain in place until further notice.**

**Issuance of the boil advisory follows the start of water line work in the Atchison County community.**

**Callahan said when the work began Tuesday morning, the water pressure at several residences dropped to zero, leading to the need for the advisory.**

**According to the Kansas Department of Health and Environment, failure to maintain adequate pressure may result in a loss of chlorine residual levels and bacterial contamination.**

**Customers should boil water to be consumed for one minute prior to use, or choose bottled water while the advisory remains in place.**
