Fire destroys Beattie business

(KMZA)--The cause of a fire that destroyed a business and landmark in the Marshall County community of Beattie remains under investigation.

Firefighters were called to the Beattie Locker at the intersection of K-99 Highway and Main Street around 1:00 Sunday morning.

The fire destroyed the building and its contents, leaving just some walls of the two-story limestone building standing.

In a post on the Beattie Locker Facebook page, Owner Robert Godwin said after much thought and consideration they have decided with a heavy heart that they are not going to rebuild.

Godwin thanked everyone that has done business with them the past 18 years.
