

Food drive success for local students  
**(KAIR)--750 pounds.**

**That's the weight of the food collected by local students wanting to give to those in need during the holiday season.**

**Natalie Brammer is the Student Council Sponsor and a teacher at the Atchison County Elementary School.**

**She told MSC News it was decided that the students in Effingham would hold a food drive, with that collection effort happening over recent weeks.**

**On Thursday, Brammer said all of the non-perishable items were collected at each grade level from the Effingham schools, and the final count recorded 980 items.**

**Brammer transported the donated items to the Atchison County Food Pantry, located in Atchison, where the items will, Brammer said, be used to assist needy families in Atchison County.**

**The food drive was sponsored by the Elementary Student Council.**
