Morrill boil advisory lifted

(KNZA)--The Kansas Department of Health and Environment Thursday rescinded a boil water advisory for the City of Morrill located in Brown County.

The advisory was issued Wednesday because of a loss of pressure.

Failure to maintain adequate pressure may result in a loss of chlorine residuals and bacterial contamination.

Laboratory testing samples collected from the City of Morrill indicate no evidence of contamination and all other conditions that placed the system at risk of contamination are deemed by KDHE officials to be resolved.
