

Seneca Main Street project moves forward

**(KMZA)--Another block of Seneca's brick Main Street is to be rehabilitated this year.**

**The Seneca City Council last week approved a resolution awarding the contract for the project between 6th and 7th Streets to Bryant and Bryant Construction, of Halstead, in the amount of \$757,404, and committing \$315,000 in local matching funds.**

**The total project cost is placed at \$871,000. A Kansas Department of Transportation grant awarded to the city in 2017 will cover \$556,000 of the project cost, with the city responsible for the remainder.**

**The city is to submit its share of the funding to KDOT on or before April 11.**

**The project will rebuild the brick street surface and replace sidewalks similar to to the 2012 project that rebuilt Main Street from 3rd to 6th Streets.**

**City Administrator Matt Rehder says the project will begin in early August following the Nemaha County Fair.**

**The project is scheduled for 120 working days.**
