

Release of wind farm term sheet delayed

(KMZA)--The release of the term sheet for the proposed Soldier Creek Wind Farm in Nemaha County has been delayed.

According to an email from Nemaha County Attorney Brad Lippert Friday afternoon, the County Commission need additional time to resolve some minor issues with the document. Accordingly, he said the term sheet will not be released or published until Monday morning, at the earliest.

It was announced at this past Monday's Commission meeting that contact negotiations with NextEra Energy Resources had been finalized and the term sheet was to be released to the public by the end of the week.

The term sheet will lay out the rules and regulations for the construction, operation and ultimately dismantling of the 300 megawatt windfarm.

After the document is published, two hearings will be held to allow an opportunity for public input before Commissioners vote on it.
