

Flooding funds denied to Doniphan Co

**(KNZA)--Doniphan County will not receive federal assistance related to recent flooding.**

**That word was delivered Monday to the Doniphan County Commission by County Emergency Management Coordinator Julie Meng.**

**Meng told the Commission the County did not qualify for Federal Emergency Management Agency Assistance for the flooding that impacted the area in March.**

**She explained that the denial of funding was due to the damage assessment not meeting FEMA requirements.**

**Among the flooding affects felt in Doniphan County was the March evacuation of the City of Elwood when the Missouri River reached a level of 30 feet. Residents returned home several days later.**
