KS tag and license renewals extended 60 days

**(KNZA)--Governor Laura Kelly has signed an executive order allowing a 60-day extension for tag and license renewals due to the COVID-19 pandemic.**

**According to the executive order, Kansans have 60 days to renew their tags past the last day of the month that their registration is valid.**

**The same rules apply toward 60-day tags for any vehicle purchased on or after March 12.**

**The order also provides the same guidelines for the Department of Motor Vehicles. A person has 60 days past their drivers license expiration date to renew without penalty or late fees.**

**Kelly's order also tells law enforcement officers to use discretion when encountering drivers with expired tags or licenses.**
