

Atchison Co confirms virus case 45

**(KAIR)--Atchison County confirms another case of COVID-19, while one person who had recovered again required hospital treatment.**

**According to a release issued by Atchison County Emergency Management Director Wes Lanter Tuesday afternoon, the latest case is a woman in her thirties who is isolating at home.**

**The confirmation brings Atchison County's case-count to 45.**

**According to statistics provided by Lanter, 40 of the cases have recovered.**

**However, he notes in the release that one of those earlier listed as recovered "has been placed back into the hospital." No additional details about the patient are made public.**

**That is the only current virus-related hospitalization in the county, which has experienced no related deaths.**
