Seneca tree ordinance discussed

**(KMZA)--A change is being proposed to Seneca's tree ordinance.**

**The Seneca City Council discussed the ordinance when they met last week.**

**The Council decided to give property owners 30 days to clear or trim obstructive trees or branches instead of the 10 days that is now required by the current ordinance.**

**The Council will have the city attorney revise the ordinance and bring it back to the council for approval.**

**In other business, the council approved the purchase of a software program for the Recreation Department, on a one-year trial basis, for $2,000.**

**The software program will make it easier for residents who want to participate in city organized sports and other activities to sign up for those activities.**

**The Council also approved a proposal to create the position of pool manager. Previously, the Rrecreation Department head was also the pool manager.**
