

Grab and go meals offered for students

(KAIR)--“Grab and go” meals will be offered to children through the Atchison County Schools of USD 377 beginning next month.

According to a release from the district, the summer meals will be made available for those aged 1 to 18, with any child eligible to “pick up a lunch and breakfast at the designated locations and times,” Monday through Thursday, beginning in June.

Pickup locations include the Effingham Elementary west side bus lane, with the meals to be offered from 12 noon to 12:30 at that site. Meals will also be available at the Lancaster City Hall from 12:15 to 12:40 daily, as well as the Muscotah United Church and the Cummings Christian Church, with those two locations providing the meals from 12:20 to 12:40.

According to the school district, meals will not be delivered on Memorial Day, and will instead be delivered on Friday for that holiday week, with all meals transported in USD 377 vehicles.

The release notes that the school district “is committed to offering these meals at least through the month of June,” with the continuation of the program contingent on the month’s success.
