

Falls City School Board discussing addition to North School

**(KLZA)-- Falls City Public Schools are in year two of a School Improvement Process. Currently the school district is planning for a Nebraska Department of Education Framework visit during the 2025-26 school year.**

**The priority goals include demonstrating growth in the District 56 Language Arts and Mathematics achievement; developing meaningful transaction between the District's schools; Early Childhood Expansion; Increasing youth activity participation and prioritizing vocational trades and community partnerships.**

**During Monday's meeting, it was reported that Falls City Public Schools are motivated to expand the current space at North School to meet the district's immediate childcare development needs.**

**A possible addition to the east wing of the school that would house two additional preschool classrooms, the Sixpence program, therapy rooms, a multipurpose room, and additional restrooms all under one roof has been extensively discussed.**

**The report said this is one of the main focuses for the Communities for Kids Foundation grant program. Discussions of adding a school health clinic in the North School addition have also been discussed.**

**District 56 is working with architects and consultants at the Wilkins and Lund Company teams on an early childhood facility expansion plan.**
