Atchison Sports Complex Hopes to Gain Environmentally Friendly Equipment

Atchison County Commissioners hope to obtain a grant to bring in environmentally recycled equipment for Atchison's sports complex.

Commissioners granted permission to apply for a grant to the Kansas Department of Health and Environment.

Commissioner Jeff Schuele says funding for the program comes from collection of a fee on new tire sales around the state.

SCHUELE GRANT RT: :21 OC: "...same fund."

Schuele says he expects the answer on if they will receive the award by spring or summer.
