

One injured in 4-vehicle Jeff Co wreck

**(KNZA)--A late Monday morning 4-vehicle Jefferson County collision sent one person to the hospital.**

**The Kansas Highway Patrol said it happened shortly after 11:00 on U.S 24 Highway about two miles west of Perry.**

**According to the KHP report, three vehicles were stopped in a construction zone on the highway at the flagman location when an eastbound pickup truck driven by 54-year-old David Berry, of Lawrence, failed to stop and struck a Honda Pilot in the rear. That set off a chain reaction collision with the other two vehicles.**

**The driver of the Honda Pilot, a 49-year-old Lawrence man, was transported to a Topeka hospital for the treatment of suspected minor injuries.**

**No other injuries were reported.**

**The Patrol said all four drivers, along with two passengers in the third vehicle, were wearing seat belts when the crash occurred.**
