

Pottawatomie Co bridge project completed

**(KMZA)--Pottawatomie County officials have announced the Havensville Road bridge project has been completed and is open to traffic.**

**The announcement was made Monday in a social media post.**

**The county says the contractor will seed the project during the week of December 22, and pavement striping will be completed next year.**

**The post says the bridge, which is located three-quarters of a mile east of the Onaga Road between Sunflower Road and Trails End Road, has been replaced with a reinforced concrete haunch slab bridge with a 28-foot roadway width.**

**The project replaced a bridge that was over 90 years old.**

**A bridge inspection in 2021 indicated accelerated deterioration of the bridge substructure.**

**The county says repairs to the substructure would have cost more than replacement of the bridge.**
