Housing market analysis to be conducted in Nemaha Co
(KMZA)--A housing market analysis will be conducted in Nemaha County and the communities within.

The Nemaha County Commission,during their regular meeting last week, approved having Wichita State University prepare the housing market analysis.

The action was approved on a 2-1 vote, with Commissioner Jason Koch casting the lone dissenting vote.

The lack of housing has been cited by county, city and business leaders as a big concern and something that needs to be addressed.
