#### USD 377 to Address Pre-School Mold Issue

USD 377 will continue their discussion on the mold-infested pre-school building as part of their regular monthly meeting.

They will take this matter up Monday evening at 6:30 at the Administrative Building in Effingham.

Pre-schoolers have been attending classes in the central office since mold was discovered over Christmas break.

The board will also discuss the district budget and long range planning.

In new business, the board will also take action on student trips and discuss hotel accommodations for state events.
