#### Nebraska Deer Hunters Can Donate Meat

(KLZA) Nebraska hunters will have the chance again this year to donate deer meat to help feed the hungry.

Starting Nov. 10, hunters can donate deer carcasses to the Hunters Helping the Hungry program.

The state Game and Parks Commission will pay the processing costs for at least 260 deer this year. The program is supported by donations.

More information about the meat processors involved with the program is available online at [www.OutdoorNebraska.org](http://www.OutdoorNebraska.org).
