USD 409 Looks to Approve Bus Transportation Provider
(KAIR) -- Atchison Public Schools may soon have a new transportation provider.

The USD 409 board Monday night will review options and look to approve the provider at seven at the board of education community room.

Discussions for a transportation overhaul began upon the retirement of longtime Transportation Director John Crittendon earlier this year.

The board will also look to approve a bid for annual banking services, as well as get an overview of participation in their athletic programs.
