Minor Accident Causes Atchison School Bus Delay

(KAIR)--No injuries, but a minor delay for a USD 409 school bus Monday afternoon caused by a minor accident with another vehicle.

According to Robert Mueller, Director of Curriculum and Instruction for the district, the bus was carrying students from USD 409's Alternative School, and was quickly back on the road to continue its after school route.

The bus driver was not at fault in the accident. However, the other driver was cited for making an illegal left turn in front of the bus which Atchison police say led to the collision.
