Meeting Set in Corning on Grant for New Fire Station

(KMZA)--Corning-based Nemaha County Fire District #2 has received approval of their pre-application for a grant to build a new fire station.

The next step in the process will be a site visit in which representatives from the Kansas Department of Commerce will come to Corning to explain how the grant through the KAN-STEP program works and determine whether the community is capable of providing the sweat equity for the project.

The grant, with a maximum award of \$300,000, requires the use of volunteers to match the grant funds.

The fire department is encouraging residents to attend a meeting Wednesday evening, September 4th at the Corning Community Center at 7:30 to show their support.

Those with questions should contact any of the firemen.
