

City to offer E-billing

(KNZA)--The city of Hiawatha will offer E-billing.

On the recommendation of City Clerk Tish Sims, the Hiawatha City Commission Monday evening approved the purchase of a software program from Gworks for online utility billing.

It will cost the city \$1,500 a year plus a one-time installation fee of \$600.

Currently, more than 1,500 utility statements are mailed out each month.

Sims estimated “going green” will save the city \$3,600 a year. In addition, she said it will save employee time.

Residents will have the option of signing up to receive their utility bills on-line.
