Atchison foundation collects for virus relief

(KAIR)--Donations, earmarked for COVID-19 recovery efforts, are being collected in the Atchison community.

That comes as the Atchison Area Community Foundation forms the 2020 COVID-19 Recovery Fund.

According to a release from foundation chairman Jonathan Mize, donations “will be directed to various charities/non profits, for relief and recovery efforts to those Atchison County Community residents who are, or have been, affected by this pandemic/economic crisis.”

The release notes that upon the formation of the fund, the Courtney S. Turner Charitable Trust partnered with the effort, making a matching donation up to \$25,000.

Donations are being accepted online at atchisonfoundation.org.
