Five new COVID-19 cases confirmed in Richardson Co
(KLZA)-- Seven more cases of coronavirus have been confirmed within the Southeast District Health Department five-county service area, including five in Richardson County.

On Wednesday the health department reported the Richardson County cases included a male in his seventies, a female in her fifties, a male in his twenties, a male in his thirties and a female in her sixties.

There have been 16 confirmed cases in Richardson County.

An additional case for a male in his twenties confirmed in Otoe County brings the county total to 35. A female in her teens living in Nemaha County pushes the county total to eight.

There have been nine cases confirmed in Johnson County and one case in Pawnee County.
