

Doniphan Co plans for vaccination round 2

**(KAIR)--Local area counties are preparing for the second phase of COVID-19 vaccinations following the Kansas Legislature on Thursday granting approval to a bill that would extend the state's coronavirus pandemic declaration.**

**Joining others from the local area in making vaccination plans is Doniphan County, which is encouraging qualifying residents to register for the County's vaccine list.**

**According to a news release issued Friday by the Doniphan County Health Department/Home Health, the State of Kansas, so far, is dispensing small amounts of the vaccine weekly to the health department.**

**The second phase of vaccinations will include all who are 65-years of age, or older, those in congregate settings, high contact critical workers, and those scheduled for vaccination under Phase 1, but have not yet received the vaccine.**

**According to the release, qualifying Doniphan County residents who want to get vaccinated should email the health department at [health@dpcountyks.com](mailto:health@dpcountyks.com) or call 785-985-3591. Those who do so will have their name added to the health department's vaccine list, with those persons to be contacted when the vaccine becomes available.**

**Residents wanting to vaccinate should visit the County's website, at [dpcountyks.com](http://dpcountyks.com), to read the Moderna vaccine emergency use authorization. A related consent form should be completed, and brought to future vaccination appointments.**
