Power outage planned for some Brown-Atchison Electric customers

(KNZA)--A temporary power outage is planned for some customers of Brown-Atchison Electric Cooperative.

General Manager Jim Currie says customers in the Netawaka, Circleville, Whiting and Wetmore areas should be prepared for the temporary outage at midnight on Thursday (May 20).

Currie said the power outage is expected to last only 15 to 20 minutes and is being done by Evergy as they perform a switchover of a new power substation.
