Survey for Nemaha Co bridge replacement to begin

**(KMZA)--The Kansas Department of Transportation will conduct a field survey for a proposed bridge replacement on K-63 Highway in Nemaha County over Turkey Creek, about one mile south of the K-63/K-71 junction.**

**KDOT says the survey is to gather information that is necessary for the detailed design of the proposed improvement.**

**It will begin on or about Tuesday, May 25, and is estimated to be completed by June 25.**

**KDOT says a member of the survey crew first will contact property owners and/or tenants for permission to enter private property.**

**Survey activities will include the use of survey instruments on the ground to determine locations of existing features within the survey corridor.**
