Heavy loads barred from MO River Bridge

(KLZA)-- The Missouri River bridge at Nebraska City has been closed to trucks and heavy commercial loads by the Nebraska Department of Transportation.

Planned rehabilitation work on the Nebraska side of the bridge is being conducted .

A NDOT news release says the closure to heavy loads is out of “an abundance of caution.”

All other traffic may continue to use the bridge.

Detour signs will help guide truck traffic to Interstate 29 in Iowa.
